

# Orthopaedics

## Orthopaedics

SOS offers Orthopaedic services at our Centres in Weybridge, Sevenoaks and Brentwood. Orthopaedics is the branch of surgery concerned with acute, chronic, traumatic, and overuse injuries of the musculoskeletal system. Orthopaedic surgeons address most musculoskeletal ailments including arthritis, trauma and congenital deformities using both surgical and non-surgical means. SOS Centres Orthopaedic Consultants cover the following areas:

- Shoulder and Elbow
- Neck and Spine
- Hip
- Knee
- Foot and Ankle

and specialise in the following types of procedures:

- Clavicle Fracture Fixation
- Subacromial Decompression
- Bankhart's Stabilisation
- Spinal Decompression
- Microdiscectomy
- Hip Resurfacing
- Hip Replacements
- Knee Arthroscopy
- Meniscal Repair
- ACL Reconstruction
- Knee Hemiarthroplasty
- Knee Total Knee Replacement
- Ankle Arthroscopy
- Forefoot Corrective Surgery
